With this issue of *Pharmacy in History* I will step down as Assistant Editor, starting my retirement from AIHP. Since 1985, I have enjoyed working with authors from around the world, and I have learned so much about the art and science of publishing a journal. I thank all those who have helped me along the way. The amazing resources of the Kremers Reference Files—both text and images—have made this a wonderful treasure hunt. I will miss the thrill of discovery.
